InSight

Digitise and simplify compliance

AMAS.AERO is an innovative solution of web-based applications to solve the daily challenges of compliance within the aerospace industry.

Compliance with regulations is important and a challenge to keep up to date on a daily basis. AeroEx's compliance experts monitor regulatory updates (legal horizon scanning) on a regular basis and provide a monthly report highlighting the relevant changes for their subscribers. Our web based AMAS InSight reporting tool assist you in monitoring your compliance obligations tailored to your organization. You can assign responsibilities, track changes, follow up on implementation - nothing gets missed!

Features

- Tracking of different Aviation Regulations (EU, EASA, FAR, OTAR, …)
- Tracking of EASA Safety Publications (ADs, EADs, SIBs, PADs, PSDs, SDs)
- EASA compliance libraries bundles suitable for your specific operation (AOC, NCC, SPO MX (continuing & initial airworthiness), ATO and DTO. Further regulations on request
- Monthly Email notification service (reporting) of changes and updates within the subscribed libraries including EASA safety information bulletins (SIB)
- History of all monthly insight reports including an overview of all changes and updates
- Identification of differences and changes from the previous revision
- Documentation of a Processing status (Implemented, in progress, not applicable)
- Assign responsibilities, track changes and identify reference documents
- Preparation of individual "InSight documentation report" in pdf
- Multi-user ready for team editing
- Various search and filter functions
- Dashboard with "my notes", "my tasks", "my favorites", news section and full text search
- Company logo branded portal (white label)
- Responsive design (smartphones, tablets and PCs)
- Online ticket system
- Additional AMAS applications to extend the basic features

Contact us for more information and request an online demo. Purchase your easy to use AMAS "Insight" application and choose your compliance libraries à la carte.

Stay compliant with AeroEx
